CLUBS AND STARS .- There were only two cases on the Mayor's docket yesterday: James Austin, c lored, arrested for disturbing the

audience in the theatre. Fined \$2. Lancaster and Howe White were reported fo driving a wagon without a license. Discharged.

CHRESTOMATHIC SOCIETY .- The annual commencement of the Chrestomathic Society of the Charleston College will take place this evening in the College Chapel. An oration will be delivered by the Rev. E. C. Edgerton on "The Moral Element in Education." and a valedictory will be pronounced by Mr. J. H. Martin, Diplomas will be conferred by the president. The public are invited.

THE STEAMSHIP ALLIANCE.-The Norfolk papers of the 3d instant contain the announcement that the steamship Alliance, from Boston, via Norfolk, for this part, is ashore at Hatterss Inlet, but no particulars as to her condition is stated. The Alliance was from Doston with a valuable general cargo consigned to merchants in this city and the interior. The shorts around Cape Hatteras are generally dangerous, and further information in reference to her will be looked for with interest.

FAUST-always a favorite opera in Charleston-drew the best house of the season last night. Every seat was filled, the larger proportion of the audience being ladies. The singing did not please us as well as on some of the previous evenings, but the acting, with which the opera abounds, gave ample scope to the dramatic balent of the prima donna. Himmer's Faust was excellent; and we could hardly have wished for a better "Mephistophiles" than Weinlich's. To-night will be the last night of the opera season, and we are to have Mozari's spirkling opera, the Magic Flu e.

ANOTHER DEVELO MENT OF THE PHOSPHATE BUSINESS .- Phosphate mining is as yet in its infancy. The housands of acres rich in this mineral which surround Charle-ton have only been scratched in small patches, few and far between The quantity obtained by these slight efforts has been manufactured into fertilizers for home consumption, or sent to the North to be returned again as fancy cuano of various names and titles, There must be a demand for these plosphites, as soon as they are known, wherever agriculture is carried on, and the business in a few years will assume giant proportions. As partially corroborating our assertions, we refer to the advertisement of Messrs. Willis Chisolm in another column, offering to make atvances on shipments of pho phates to Liverpool, and inquiring for good phosphate lands.

RENOVATE Your Houses .- This is the season of the year when it is customary to repair both the interior and exterior of dwellings and stores. The bright spring and the warm weather are near at hand, and it is necessary for health and comfort in the one instance, and for show and business in th other, that both houses and stores should be fresh and clean. Consequently there is a great demand just now for all articles psed in this renovating process, and especially for good, bright and lasting paints. Mesers. Cameron, Barkley & Co., at the northeast corner of Meeting and Cumberland streets, to meet the demands of the season, have laid in an extensive assortment of paints, oils and other articles in that line, and the attention of contractors, builders, householders and tenants is especially called to their advertisements containing a description of their stock.

FROM CUBA. - The packet schooner Minerva, Captain Collins, arrived here yesterday, from Hava na, with a valuable cargo of sugar and molasses, consigned to Messrs. Euslow & Co. The news by this arrival indicates a very disturbed state of the island, the entire eastern half of it having risen against the rule of the foreigner. The destruction of plantations and crops has already been consider able, and the sugar market is lik-ly to be still further stiffened by the large amount of this article which will be taken from the field of commerce by the destruction of the crops of this region, which is so heavy a pro lucer of this valuable commercial product. The prisons of Havana contain some three thousand persons who have been arrested by the military authorities. General Dulco has not the confidence of many of the Spaniards; owning, it is said, a valuable planting interest, and being connectof with native Cubans, his policy is supposed not to have been sufficiently severs. The pairlots are hopeful that they will triumph over their enemies, not thatanding the convulsive effort Spain is now making to keep pos ession of that valuable territory.

REPORTERS' CRUMBS .- The Sixth Infantry leaves for the West to-day. Colonel Milton Cogewell, of the Eighth Infan'ry, succeeds to the command of the garrison, with Companies B, F, F and G. of h's regiment.

Inauguration day was celebrated yesterday by a display of bunting and the parade of two colored Prang's chromos are attracting the attention of the

THE HORNS OF PILLSBURY'S DI-

The act of August 15, 1868, under the provis'ons of which Mayor Clark was arrested yesterday. is declared by the act under which Mr. Pillsbory claims, commonly known as the Charleston Election bill, not to apply to the present Acting Mayor and Aldermen of the City of Charleston It he latter act is constitutional and valid, the arrest was illegal; if it is unconstitutional and invalid. Mr. Fillsbury has no title to the office, and the arrest was still illegal. The language of the repealing clause of the Charleston Mection bill is as follows:

ton viccion bill is as follows:

SECTION 4. Any laws continuing in office persons elected or appointed to office previous to, during or un er the late provisional government of South Carolina, or un der or by virtue of any military orders, shall be held not to apply to or continue in office the present Acting Mayor and sld-rmen of the City of Charleston, but as to them said have; ball be held to be nail and viol. All acts or parts of acts means stent with this act are hereby repealed.

It might seem from this section taken singly that the act was intended to be repealed in re- ard to the Acting Mayor and Aldormen, so far as it- power to continue them in office is con crued, and not as to the povision for purishment under which the arrest was made; but this construction is rendered entirely inadmissable by the section of the "E cotion bill" which immediately precedes the foregoing, and which provides a wholly different penalty for this particular case. The acction alluded to reads as fol-

SECTION 3. That for each and every day's dete SECTIONS. That for each and every day occur-tion or holding of the office of Mayor or aldermen of the City of Charleston, contrary to the provisions of this act, the person or persons so offen ing shall be subject to a penalty of fifty dollars, the said penalty to be recovered in any action of dibt by the person or persons aggreesed and kept out of office thereby. The foll wing is the act under which the arrest was made:

I. Be il enacted by the Senate and Bouse of Re-PORPOSES.

PROBABLY NEVER BEFORE IN THE WHOLE history of medicine has anything won so widely and so deeply upon the confidence of mankind as this excellent remedy for pulmon-ry complaints. Through a long series of years, and among most of the races of men, it has risen higher and hisner in their estimation, as it has become better known. Its uniform character and i ower to cure the various affections of the lungs and throat, have made it known as a rollable protector against them. While anapied to milder forms of dise and to young children, it is at the same time the most effectual remedy that can be given for incipiont consumption, and the dangerous affectings of the throat and lungs. As a provision a sainet sudden attacks of Croup, it should be kept on hand in every tamily, and indeed, as all are sometimes subject to colds and coughs, all should be provided with this antidote for them. Although settle Consumptions is thought incurable, still great numbers of cases where the disease seemed settled have been completely cured, and the patient restored to sound health by the Chebra Pegiorara. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Chebra Pectoral they sucside and disappear. NINGERS AND PUBLIC SPEARERS find great protection from it. Astima is always relieved and often wholly cured by it. Brookchitzis is generally cured by taking the Chebra. GEO. W. WILLIAMS & CO.
